Executive Manager / Senior Executive Manager (Professional Services)

**Department**

Information Technology and Health Informatics Division

**Pay**

HKS203,551 to HKS275,658 per month including Monthly Allowance

Up to 15% of total basic salary (after deducting the contribution of Mandatory Provident Fund by Hospital Authority) as end-of-contract gratuity may be offered to contract staff upon completion of the contract subject to satisfactory performance.

**Key Responsibilities**

Reporting to the Director / Head of the Information Technology & Health Informatics Division, the Chief eHealth Officer will provide executive leadership and strategic direction for designing, developing, implementing, and governing IT agency services that support the Health Bureau (HBB) in advancing digital health initiatives. This includes overseeing the development of territory-wide Electronic Health System (eHealth), which is being transformed under the eHealth+ five-year development plan (2024/25-2028/29) into a comprehensive healthcare information infrastructure that integrates multiple functions of data sharing, service delivery, and care journey management; as well as other agency projects in support of the smart health ecosystem development in Hong Kong. This role is pivotal in driving digital transformation to enhance population health outcomes.

**Key responsibilities including**

1. Formulate digital healthcare strategy and roadmap for the territory, defining the vision for an integrated, citizen-centric health information ecosystem to achieve the Government's overall eHealth policies and directions, including primary healthcare and cross-boundary healthcare initiatives.
2. Steer the formulation and revision of eHealth information related regulations and policies.
3. Oversee the policy, standard and procedure establishment of information security and privacy and ensure that proper mechanisms are in place for compliance monitoring with the relevant policies and ordinance.
4. Champion the IT development and implementation of the eHealth+ and IT agency projects for the Government, ensuring they meet strategic objectives and timelines and advancing the integration of eHealth with HA's services.
5. Identify and evaluate potential growth areas, market segments, and geographic expansion opportunities, considering market dynamics and regulatory landscapes.
6. Spearhead effective engagement, industry collaboration and promotional strategies and execution plans for successfully launching and implementing eHealth+ programme and other IT agency projects under the health family.
7. Provide high level leadership and direction to the government-led agency project and eHealth initiatives by leading teams of different background handling eHealth and other related systems operations and the architectural design to develop and implement a comprehensive eHealth and digital transformation strategy that aligns with corporate goals and government healthcare policies for enhancing patient experience, clinical outcomes and operational efficiency.
8. Develop policy, standards, IT systems and architectural framework to enable secure and interoperable health information exchange between public and private healthcare providers.
9. Drive the design and maintenance of a high-performance, scalable, and secure system architecture to meet operational and strategic needs.
10. Drive for customer-centric innovation and technology competence with applicable and advanced technologies, such as AI, Machine Learning, Cloud platform, etc., by evaluating their potentials to solve business problems.
11. Provide oversight and support to the governance structures and project management processes, ensuring regular updates on the progress and achievements to maintain transparency and compliance with policies and guidelines.
12. Ensure the execution of annual work plans and budgets in alignment with organizational and governmental objectives, and optimize resources for financially sustainable services and long-term growth.
13. Implement quality assurance, data privacy and security, patient safety, and risk management frameworks and resolve potential issues through continuous reviews of guidelines and procedures to maintain high standards of service delivery.
14. Build and develop the team capacity by identifying appropriate training and development opportunities to enhance skills and knowledge to cope with the latest eHealth developments.

**Entry Requirements**

1. Tertiary education, preferably a master's or above in healthcare or IT related discipline, demonstrating advanced knowledge in the eHealth domain. Training in medical, IT and/or management is essential.
2. Significant leadership-level experience with a proven track record in managing large-scale health IT programmes.
3. Strong leadership skills with the ability to inspire teams, drive strategic initiatives, and achieve ambitious goals.
4. Entrepreneurial spirit and business acumen with deep understanding of healthcare industry trends, competitive dynamics, and regulatory landscapes.
5. Strategic and innovative mindset, capable of developing and articulating a clear organizational vision aligned with long-term business strategy.
6. Excellent communication skills, adept at conveying complex ideas and securing partnerships with government, public and private sectors.
7. Strong negotiation and influencing skills with the ability to build relationship and drive consensus internally and externally for strategic initiatives.
8. Strong problem-solving abilities and strategic agility to address challenges in a rapidly evolving industry.
9. Technical proficiency in data architecture, AI/machine learning, system integration and other IT domains relevant to eHealth.
